Lowestoft Seafront in Summer

## Associate Doctor of Chiropractic Required

### About Country Chiropractic

Country Chiropractic opened in September 2007.

Your Body is unique. We see everyone as an individual and make no assumptions. We carefully assess every member and give them the care plan that precisely suits the needs of their unique case.

Our Intention is to bring our highest quality, caring service along with the natural healing power of Chiropractic to everyone in our reach, introducing them to the benefits that Chiropractic care can bring to their everyday lives.

Optimal Health is achieved by looking beyond symptoms such as back pain and headaches and instead correcting the underlying causes of those symptoms. Everyone should be given the opportunity to achieve their own optimal health to be able to enjoy life to the full.

### Our Location

We are located on the most easterly point of the UK with the beach just 5 minutes walk away. Lowestoft is a busy east coast town with a vast history as a fishing port. The town has most of the usual high street shops and facilities and benefits from being just a short trip away from the popular tourist attraction of Great Yarmouth plus if nightlife or shopping is your thing, Norwich and Ipswich is in easy reach.

Lowestoft has its own attractions too including Pleasurewood Hills family theme park and we have the hugely popular annual Latitude Festival just down the road.

### Current team members

This position is available as we wish to continue to grow and develop the practice to meet the demands of our community so that we can truly can serve our community.

Our senior Chiropractor & joint practice owner, Sara Dudley has been in practice since graduating from WIOC in 2001 so has many years experience in delivering top quality service to our clients. Our existing associate Chiropractor is Mark Pollard who came to us with over twenty years practice experience in busy London clinics. The Clinic is managed and joint owned by Sara's husband Paul Weavers and we have an amazing front of house team. We also have the benefit of a sports masseur and a reflexologist / aromatherapy masseur working within the practice and will shortly be bringing other therapists onboard to offer a wider range of services to directly complement our core activity.

### Our Facilities

The Clinic is based within a large former house just off the main high street in the town centre and features seven treatment rooms. We have our own digital X-Ray facilities and operate Gaitscan equipment for Orthotics assessments.

### Our Vacancy

Full time Chiropractors are required to join us on an employed basis. All mandatory professional fees will be paid for by the clinic. We will also fully support the training needs of new graduates and help them with PRT and support them with training courses they wish to attend including funding. As former clients of a hugely successful Chiropractic consultancy company, we have been taught highly effective, ethical systems and procedures for patient management and for running a very successful business and we are happy to teach anyone who joins us these skills too. Any new Chiropractor joining us will receive a full months mentoring and shadowing before being expected to see clients on their own and full support will continue after this.

### Person Description

We are looking for an enthusiastic and highly motivated Chiropractor with a desire to build and maintain a large patient base within our rapidly expanding practice.

### Applications

If you feel you are the person we are looking for please send us your CV along with a short covering letter telling us about you and why you feel you are exactly what we are looking for.

Paul Weavers
