

## EXCITING OPPORTUNITY

Calling graduates. We are looking for a DC who would like to join our team who has an enthusiastic personality, must be dedicated and committed to taking Chiropractic into the new century. Oxford Chiropractic Clinic (OCC) wants to help you to be a great Chiropractor and be part of a successful, happy and caring team starting in January 2019

The chosen candidate will step straight into an established clinic which has been at the heart of the Oxford community for many years and is well known throughout the World, it has an exceptional flow of new patients and is situated within a private hospital.

This is a self-employed position and the successful candidate should have the passion, drive and motivation to build their own patient base and will also, initially provide cover of existing patients while one of our Chiropractors is away from the clinic. We have a thriving new patient base and you will have the opportunity and support to build yours as well.

The clinic is considered a centre for excellence, SOT and Cranio fascial Dynamics (CFD) is core to the care we deliver when it comes to chiropractic care; as part of your package you would be offered an exceptional and intensive mentoring programme from Dr Jonathan Howat which would form the focus of your initial training. CPD designed and run by Dr Jonathan Howat would also be part of your OCC journey to develop you as a valued and competent Chiropractor in the field of SOT and CFD

The Clinic understands the importance of working in a supportive environment and is passionate to help individuals to achieve their goals. You will be offered:

- A guaranteed salary for the first three months
- great remuneration on a self-employed basis
- in house training in SOT and CFD

Send your application and covering letter on why you would like to work with us via email to [geraldineocc@gmail.com](mailto:geraldineocc@gmail.com) by 20<sup>th</sup> December 2018. You can check our website [www.oxfordchiropracticclinic.co.uk](http://www.oxfordchiropracticclinic.co.uk) for further information to get you started.

We look forward to hearing from you.
