

## HOW TO ANSWER A CLINICAL QUESTION USING THE EVIDENCE

WEDNESDAY 20TH MAY 2020

FUTURE INN, PLYMOUTH INTERNATIONAL BUSINESS PARK, PLYMOUTH PL6 5ZD

### EVENT OUTLINE

Evidence based practice is the prevailing paradigm for the provision of health care. All too frequently its application into practice is delayed, misunderstood or derailed by non-practice factors. This session will use examples of 'best' evidence and outline the process by which chiropractors can judge its appropriateness for use in their practice.

### LEARNING OUTCOMES

- Become re-familiarised with the central tenets of EBP
- Identify and critique 'best' evidence
- Use an example to construct a process by which evidence can be appraised and applied to practice.

### SPEAKER: Keith Walker FRCC, MRCC (Pain)

Following a brief career as a Registered General Nurse, Keith walker graduated from the AECC in 1991 and since that time has run various different practices in the Midlands and now in Devon. In 2013 he began his professional doctorate from the University of Bath whilst in full time practice. In 2015 he accepted a post as a part time lecturer in health sciences, principally evidence based practice, in the school of health professions at the University of Plymouth. He teaches on postgraduate courses for allied health professionals, nurses and medical staff as well as Interprofessional modules for the large undergraduate school. He is a member of the RCC research Committee.

### PROGRAMME
