

Torbay and Teign chiropractic Clinics are looking to recruit an associate chiropractor to work alongside our team of many years. We are 5 chiropractors with 40 years, 30 years, 20 years 10 years and 5 years experience. We have 2 sports therapists, 1 clinical psychologist, 1 foot health practitioner, a respected orthopedic surgeon and a consultant podiatrist running occasional clinics.

We have on site xray and ultrasound scanning, 3 shockwave machines, 4 ultrasound machines, a laser and rock tape cupping kit. Four of us trained at AECC and one at Palmer. We are BCA members and I have been a college of chiropractors PRT trainer since 1998.

We have 20,000 patients on file over 35 years of the practice beginning and have roughly 600-900 new patients per year. We advertise very little and run very happily on recommendations.

This year we are going digital with Jane app and also modernising our purpose built clinics. Our hope is that an associate will want to come and live in beautiful south Devon and enjoy an outdoor life alongside learning from our experienced and friendly team. I could drone on about the clinic but if you are interested give me a ring, or better still come. And spend some time with us and observe and interview at the same time.

Working as a self employed associate , financial support will be offered for a time, with a guaranteed minimum and a quick progression from 50% to 55% to 60% depending upon experience or patient numbers which is negotiable.

The most important thing is we want you to be happy, learning our great profession in a lovely environment with quite nice people.

Contact: Ian vasey on 07970228456 better to text as I am useless at answering my phone or email [torbaychiropractic@gmail.com](mailto:torbaychiropractic@gmail.com).
