

Backs and Joints, Basingstoke

A great opportunity for an associate chiropractor to take over a part time clinic from our existing associate who is leaving to relocate. This would suit a chiropractor who is keen to treat patients and help them to care for themselves.

You will benefit from on site training and working as part of a multidisciplinary team supported by excellent reception staff. The position is available from now for the right candidate.

Remuneration is 50% with negotiable increase once you have been at the clinic for 6 month or once you've completed your PRT program; whichever comes first.

If you are interested please contact: vera@backsandjoints.co.uk with a short letter and CV.
