

Full time associate vacancy

Taking over an existing patient base.

£47,000+ Per Annum

£33,280 guaranteed basic minimum

(40% of 40 patients as a guaranteed minimum salary and then 50% of everything in addition per week)

5.6 weeks paid holiday per year.

Employed position as part of the Royal College of Chiropractors PRT programme to help ensure a smooth transition from the undergraduate setting to autonomous professional practice.

We are looking for someone with good patient management and communication skills, together with a warm personality to fit in with both the team and patients.

Location

North Walsham is the largest town in North Norfolk. It's a bustling market town in a rural area with an array of shops and businesses and an increasing population. Close to the historic city of Norwich, it's easily commutable (by bus, train or car) if you like vibrant city life. If you prefer a more relaxed and laid back pace of life, the North Norfolk coast and Norfolk Broads are right on our doorstep too.

The Clinic

Established in 1996, the clinic has a friendly atmosphere and is committed to high standards of patient centred care. We have a fantastic local reputation and have been awarded the RCC's Patient Partnership Quality Mark since its inception.

Each treatment room is well equipped and has a combined hilo and vertilift treatment table with a full set of drop pieces.

Diversified technique is predominantly used. Other techniques including SOT, dry needling, Thompson, Activator and DNS are also utilised, but are not required skills.

The clinic director, Steve Wales has over 25 years experience, is an approved trainer / mentor with the Royal College of Chiropractors, and is keen to give full active support to the associate's ongoing post-graduate development.

With recent associates seeing 50-60 patients and 5-6 new patients a week, there are enough patients to perfect the techniques you have already learnt, but enough time with 20-30 minute treatments to practice and develop new skills. Allocated times are built into the diary for clinical observations, discussions and mentoring. For the right candidate there is plenty of scope to develop and grow their patient base with the support of the clinic.

If you would like more information or to apply for the position, please call us on **01692 500600** and ask to speak to Steve, or email steve@nwchiropractic.co.uk
