

# Fantastic Graduate Associate Position

**Employed position with paid holiday and a pension option.**

**Taking over an existing patient base on a percentage of 50%.**

**Initial GCC and insurance fees paid.**

The clinic director is an experienced trainer / mentor with the Royal College of Chiropractors, and is keen to give full active support to the associate's ongoing post-graduate development on the PRT programme. Allocated times are built into the diary for clinical observations, discussions and mentoring. The current associate is seeing 50-60 patients and 5-6 new patients a week, so there are enough patients to perfect the techniques you have already learnt, but enough time with 20-30 minute treatments to practice and develop new skills. There is plenty of scope to develop the patient base further with the support of the clinic.

The clinic has a friendly atmosphere and is committed to high standards of patient centred care. We have a fantastic local reputation and have been awarded the RCC's Patient Partnership Quality Mark since its inception.

Each treatment room is well equipped and has a combined hilo and vertilift treatment table with a full set of drop pieces.

We are located in North Walsham which is the largest town in North Norfolk. It's a bustling market town in a rural area with an array of shops and businesses and an increasing population. Close to the historic city of Norwich, it's easily commutable (by bus, train or car) if you like city life. If you prefer a more relaxed and laid back pace of life, the North Norfolk coast and Norfolk Broads are right on our doorstep too.

For more information or to apply for the position, please call us on 01692 500600 and ask to speak to Steve, or email [steve@nwchiropractic.co.uk](mailto:steve@nwchiropractic.co.uk)
