

An opportunity to work in beautiful Snowdonia!

A graduate is required to assist in a very busy clinic in Bangor, Gwynedd.

Bangor is a historic university city, nestling between the mountains and the sea in north-West Wales.

It affords extensive opportunities for all kinds of leisure activities, including both normal and extreme sports.

The Snowdonia National Park with its stunning scenery and range of 15 mountains is only a stone's throw away from Bangor.

The city is also very well situated, with good access to larger centres, being only 2 hours from Manchester and Liverpool, and only 3 hours from a capital city, Dublin in Ireland.

Dublin is easily accessible from the port of Holyhead, on the Isle of Anglesey, some 20 miles from Bangor.

The clinic environment itself is friendly and bilingual (Welsh and English), and we have a large number of multi-cultural patients here due to the fact that Bangor is an university city.

The position would suit a graduate who has a certain amount of self confidence, and who can be comfortable in a multi-cultural environment.

The Chiropractor, (Stephen Mack-Smith AECC 1990) has been working here for 30 years, and now cannot meet demand due to the increase in the volume of work.

As we care for our patients, the Chiropractor who fills this position can expect to be well trained by us.

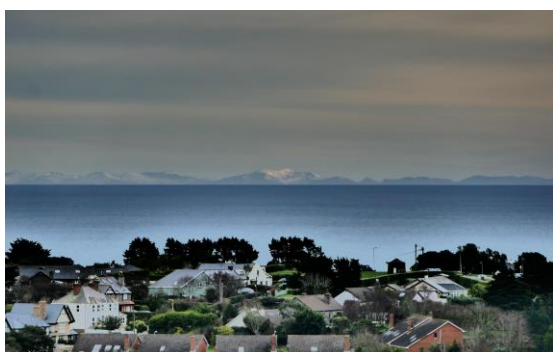

I happen to be a PRT trainer, and the tutor for North West Britain for the last 15 years, and have an interest in Chiropractic excellence. This involves not just Chiropractic knowledge, but complex biomechanical diagnosis, good and effective technique (both spinal and extremity), and patient management.

It is hoped that the successful applicant will also develop their own specialist knowledge and skill set. There are also opportunities to engage with the local NHS in the area.

Salary will initially be 50% (estimated income about £35K), to rise in subsequent years

For further information about the clinic visit www.clinigceiropracteg.cymru and feel free to check out our Google reviews.
