What is the evidence for SMT and HA or Migraine

**With Associate Professor Peter Tuchin
(Ret) BSc GradDipChiro DipOHS PhD FACC**

Webinar Outline

Join us for the first of 3 webinars this year with Professor Tuchin. In this webinar Professor Tuchin will provide up to date information on the headache and migraine classification system, diagnosis, treatment, and recent research. He will also review significant research on manual therapy for migraine.

Learning Outcomes

- Review headache and migraine diagnosis
- Causes, treatments, new research
- Highlight important issues in chronic pain
- Review evidence on manual therapy and HA/migraine

Speaker

Dr Peter Tuchin retired from Macquarie University after 27 years as an Associate Professor. Peter's areas of interest and research include the relationship of posture with neck pain, headaches and migraine, chronic pain syndromes, and the relationship of vertebral artery dissection stroke with chiropractic. Peter was also President of the Chiropractic and Osteopathic College of Australia (COCA), he was on the COCA Executive for over 20 years and was awarded Life Membership in 2017.

In addition, Peter worked at WorkCover NSW as a Team Leader and was employed as a National OHS Manager. Peter also has had over 60 papers accepted for international scientific journals and received several international research awards. Peter conducted one of the largest randomized controlled trials on chiropractic for migraine to date and recently completed a systematic literature review on manual therapy for migraine.

Peter has given hundreds of conference and keynote presentations, and has given many more talks for community groups such as Rotary, Probus and VIEW clubs.
